Century College Associate Degree Nursing Program

3300 Century Avenue North
White Bear Lake, Minnesota 55110
651.773.1700
century.edu

Century College is an equal opportunity, affirmative action employer and educator, and a member of the Minnesota State Colleges and Universities system.

This document can be made available in alternative formats to individuals with disabilities by calling 651.779.3354, 1.800.228.1978 or through the Minnesota Relay Service at 1.800.627.3529.

About the Program

Thank you for your interest in the Century College Associate Degree Nursing Program. The Century College A.D. Nursing Program is designed to:

- Prepare associate degree nurses to provide safe, patient-centered, and holistic care in entry level positions in nursing practice.
- Prepare graduates who are qualified to take the National Council Licensure Examination for Registered Nurse (NCLEX-RN).
- Provide an opportunity for nursing students to develop their commitment to personal and professional growth.
- Prepare students for and promote continued formal professional nursing education.
- Prepare culturally-aware graduates to work within a diverse and ever-changing world.

The college is accredited by the North Central Association of Colleges and Schools. Century College Nursing Program is approved by the Minnesota State Board of Nursing and is accredited by the National League for Nursing Accrediting Commission (NLNAC). The National League for Nursing Accrediting Commission's address and phone number is: 3343 Peachtree Rd NE Suite 500, Atlanta, GA 30326; 1-866-747-9965; www.nlnac.org.

MISSION

The Century College Associate Degree Nursing Program is committed to inspiring life-long learning and empowering students to positively impact the evolving health care needs of the community through safe, purposeful, and evidence-based professional nursing practice.

VISION

To be a leader in associate-degree nursing by preparing quality and compassionate nurses through an innovative curriculum.

STUDENT OUTCOMES

Upon graduation, students will...

- utilize the nursing process to provide safe, holistic patient care.
- demonstrate professionalism through accountability, integrity, leadership, and caring.
- utilize communication and technology to effectively collaborate, manage knowledge, and support decision making.
- establish and maintain a professional practice knowledge base needed to prepare for life-long professional nursing.
- apply critical thinking in managing the care of patients across the life span.
- provide quality patient care utilizing evidence-based practice.

Student Success

Of the Inver Hills-Century Nursing graduates who took the Minnesota NCLEX®-RN exam January thru December 2010, 83.03 percent passed the exam on the first attempt. The average passing rate for all Minnesota Associate Degree Nursing graduates taking the exam in 2010 was 83.88 percent on the first attempt, compared to the National passing rate of 86.46 percent. Annual employment statistics for the Century College nursing graduates are available from the college placement office.

Employment Outlook

National and state predictions for jobs for new registered nurses continue to be constant. The most recent data (www.iseek.org) suggests that the number of registered nursing positions will increase by 23.8 percent in the state of Minnesota between 2009 and 2019. The number of jobs in hospital nursing is expected to grow more slowly than in other settings. This is because patients are being released earlier from hospitals. As a result, rapid growth is expected in home health care, transitional care, and long term care settings. Employment is expected to grow faster than average in these places as health care in general expands.

Nursing Program Tracks and Education Options

Nursing Program – Traditional Track

This track requires completion of the entire, four-semester nursing course sequence and Minnesota General Education Transfer Curriculum (MnTC) requirements. Classes meet during the day. Courses that involve clinical experience will include placement in a variety of health care settings and may be scheduled during the day or evening. Separate brochures are available describing the admission requirements and curriculum for the traditional track.

Nursing Program – Mobility Tracks

There are separate nursing mobility tracks offered to qualified LPNs and Paramedics to prepare for professional nursing. The mobility track requires completion of a summer nursing transition course and two semesters of nursing courses and general education requirements. Admission and program requirements are subject to changes without notice.

Education Articulation

Broader career opportunities are available for registered nurses with a bachelor's or master's degree in nursing. Graduates of the Century Nursing Program have met the lower division general education requirements of a bachelor's degree in nursing for all MnSCU universities. A Minnesota statewide nursing articulation agreement provides "seamless transfer" to students who pursue their bachelor's degree from any baccalaureate nursing program offered through the Minnesota State Colleges and Universities System. The Counseling Departments have transfer guides for baccalaureate nursing programs at other colleges; admissions requirements and course equivalencies may vary.

<p>Contact information Nursing Admissions Century College 3300 Century Ave North White Bear Lake MN 55110 651/779-3910 admissions@century.mnscu.edu</p>	<p>Century College Nursing Program Checklist</p> <ul style="list-style-type: none">▪ Apply to the college, review admission requirements and take assessment tests; complete required pre-admission courses (if necessary) before applying.▪ Request all official copies of college or high school transcripts to be sent directly to the Records Office.▪ Attend a nursing information session or schedule an appointment with a Counselor (recommended).▪ Complete and submit nursing application form by deadline to Admissions Office.▪ Complete AS degree general education (MnTC) courses prior to beginning nursing courses (recommended). Note: Students must have completed BIOL 2031 & 2032 or equivalent before taking the first nursing course in the Nursing Program LPN Mobility Track.
--	--

Admission Requirements

All the admission requirements outlined below must be met before application to the Nursing Program. Students seeking any exception to the admission criteria should consult the Century College catalog for petitioning instructions.

Admission Criteria:

1. EMT-P Certified

- Certified as a Nationally Registered Emergency Medical Technician-Paramedic (NREMT-P), and/or State Certified as an EMT-P (certification may be in any state in the U.S. but must be to a level equivalent to a Nationally Registered EMT-P).
- Equivalent of one year full-time work experience as a paramedic within the past 5 years required before the first nursing courses (NURS 1260/1265); employment history will be verified by the college.

2. Credit and g.p.a. requirement: Completion of a minimum of 10 college-level credits from Minnesota General Education Transfer Curriculum (MnTC) course list or transfer courses evaluated as MnTC, with a cumulative grade-point average (c.g.p.a.) of 3.0 or greater. Please see the college catalog, the Century College web site or the Counseling Center for the list of eligible courses. Other types of credits, including but not limited to: occupational curriculum, career development, Pass/Fail, computer skills, learning lab, study skills, reading, English Speakers of Other Languages (ESOL) courses and physical education **will not** be calculated in the GPA. This requirement also applies to all course work taken after application up to the start of Nursing Program classes.

Students who do not have a cumulative g.p.a. of 3.0 may petition for admission consideration based on their most recently completed general education credits (minimum 10 semester credits) including required science courses. Completion of credits and submission of petition must be completed by the nursing program application deadline.

3. Science requirement: Completion, with a minimum grade of C, of a four-credit (semester), college-level Introductory/General Chemistry or Introductory/General Biology course with laboratory, such as Century CHEM 1020 or BIOL 1020 or transfer equivalent (transfer equivalents must include laboratory). CHEM 1020 has a mathematics prerequisite, MATH 0030 or math assessment placement in Math 0070 or higher.

Please note that both General Chemistry and General Biology are prerequisites for Anatomy and Physiology at Century College. Anatomy & Physiology (8 credits) must be successfully completed prior to beginning the summer transition courses (NURS 1260 and NURS 1265).

4. Math/Reading/Writing requirement: Nursing applicants must follow the Nursing Program policy and complete the assessment tests in Reading, Writing and Mathematics with scores at the required college level or have completed the required coursework prior to the nursing program application deadline.

Assessment exceptions based only on transcripts from United States colleges and universities include:

- Writing assessment if applicant has a transfer course equivalent to ENGL 1021 with a grade of C or higher
- Reading assessment if applicant has a transfer course equivalent to RDNG 1000 with a grade of C or higher
- Math assessment if applicant has a transfer course equivalent to MATH 1025 with a grade of C or higher or MATH 1000 (or transfer equivalent) with a grade of C or higher
- Reading and Writing assessment if prior completion of a Bachelor's degree

Previous assessment test scores in Reading and Writing will remain current for 6 semesters. Assessments in Math will remain current for 4 semesters. Students may submit assessment scores from other MnSCU institutions and/or institutions that use the Accuplacer, Descriptive Tests of Language and Mathematical Skills (DMT/MS) or Computerized Placement Test (CPT) assessment test systems.

Note: *Indicate nursing as the major and answer the appropriate background question regarding applying to the Nursing Program when taking assessment tests to ensure that the correct math test is administered.* Students taking Math Assessment at another institution will need to request the 'Arithmetic' level of the Accuplacer. If the student does not receive a placement of MATH 1000 on the mathematics assessment, the student will be required to register for appropriate prerequisite math courses as determined by the Assessment Office. Students are encouraged to take the mathematics assessment well in advance of entering the Nursing Program so that, if necessary, any remedial courses can be completed. ****MATH 1000, Medical Dosages, is strongly recommended for any Paramedic who has not been recently employed or for any Paramedic who is weak in math.***

For information about completing assessment tests, call 651/779-3352. You are urged to take the assessment tests as soon as possible so you know whether you need to complete developmental courses before applying. Students completing remedial/developmental coursework at another institution must re-take the assessment. **All required remedial/developmental course work must be completed by the Nursing Program application deadline.** Practice test questions for the assessment tests can be found on-line at www.google.com and type in: Accuplacer practice tests.

5. Pre-Admission Exam for Nursing: All applicants must take the Elsevier A2 pre-nursing admission exam prior to the November 1st application deadline. Exam scores are applied to selection criteria for admission. Visit the Nursing Program website for exam and registration details. Individual exam reports must be included with program application.

Application Requirements

In addition to the admission requirements on the previous page, applicants must complete the application procedures and the requirements after acceptance, as outlined below, by the deadlines indicated to be eligible to begin the Nursing Program.

Application procedures

Deadlines: At the time of application, students must have completed the minimum admission criteria. Transcripts, petitions, and all other supporting documentation must be received by the Admissions Office by the published application deadline. **To meet the earliest application deadline, the requirements for admission and application to the program must be completed almost a year in advance prior to actually starting the nursing courses.** Students are urged to apply early.

The application deadline for the Century College Paramedic Mobility Nursing Program beginning summer 2012 is **November 1st, 2011.**

The mobility track begins in the summer session and then requires two additional semesters of nursing coursework. Frequently the program fills. Applicants who are qualified but not admitted are placed on an alternate list based on their ranking. If spaces become available in the Nursing Program for the term they applied, applicants from the alternate list will be granted admission. Applicants not admitted must complete a new application for the next application deadline for the subsequent year. The college reserves the rights to extend the application deadline until the class is filled.

Pre-application education requirements: At the time of application, applicants must have completed all the academic requirements listed previously in "Admission Requirements".

Nursing Program application form: The Nursing Program application form must be completed and submitted to the Admissions Office. The college application and \$20 application fee must be submitted to the Admissions Office in addition to the Nursing Program application if the applicant has not applied to the college in the past. The Nursing Program application is not a substitute for a Century College application. Please note: academic suspension and/or financial holds at other MnSCU institutions could prevent a student from being admitted to Century College.

Transcripts: Request official transcripts for all college courses and vocational school work done previously, including any courses in progress. **Official transcripts from Century College are not required.** Request official transcripts for all college courses and vocational school work done previously, including any courses in progress. Transcripts must be sent directly from the previous institution to the DARS/Transfer Office. Applicants who have previously attended a MnSCU college or university are responsible for contacting the DARS/Transfer Office prior to the application deadline to ensure that e-transcripts have been received and evaluated. International transcripts must be evaluated by World Education Services to be petitioned for use; contact www.wes.org or call 212/966-6311. Transcripts must show the same name that appears on your application form; notify other institutions of any name change accordingly.

Selection process

Admission to the Nursing Program has become highly competitive and the college may not be able to accept all applicants that meet the minimum admission requirements. Applicants are ranked and selected for admission based on several criteria, including: pre-admission nursing exam (A2) scores, grade-point average in selected courses; prior degree completion (must apply for the degree); general education (MnTC) coursework completed for the A.S. degree by the application deadline; current or past (within past two years) paid direct patient care experience (equivalent to a minimum of 3 months full-time); nursing preparatory coursework (Medical Terminology, Medical Dosages, Nursing Assistant); and credits completed at Century. Employment history will be verified by the college. Selection criteria for admission is subject to change without notice.

Applicants who are qualified but not admitted are placed on an alternate list based on their ranking. If spaces become available in the Nursing Program for the term they applied, applicants from the alternate list will be granted admission.

Applicants not admitted must complete a new application for the next application deadline for the subsequent year.

After application/acceptance

Completion of the following requirements is mandatory. Accepted students who do not fulfill these pre-Nursing Program requirements lose their space in the program and forfeit the deposit.

Notification: The College will inform applicants of their admission status approximately 6 to 8 weeks after the application deadline. Applicants selected as students must return the signed acceptance form and a deposit of \$100 (nonrefundable). The deposit will be refunded mid-semester as long as the student remains enrolled in the first semester nursing courses.

Orientation: Admitted nursing students will be notified of the date and time for the required Orientation/Registration session.

Human Services background study: *If you have been arrested, charged, or convicted of any criminal offense, you should investigate the impact that the arrest, charge, or conviction may have on your chances of employment in the field you intend to study or on your chances to obtain federal, state, and other higher education financial aid (MN Statute 135A.157).* Students must receive clearance through the annual background study to provide direct patient care in the clinical setting or they are subject to dismissal from the program. The application for the background study is done during the required orientation to the program and annually.

Immunization records: Students will receive the Pre-Entrance Nursing Program Immunization Record form for signature by a physician or physician designee. A completed immunization record, along with the required documentation, must be submitted to the Nursing Department.

CPR certification: Current certification in a healthcare provider CPR (such as the American Heart Association's *Basic Life Support Health Care Provider Course* or the Red Cross's *CPR for the Professional Rescuer*) is required prior to the start of the Nursing Program. Century College offers this course as do many other colleges, hospitals, local school districts, and nonprofit organizations. CPR certification must remain current throughout the nursing program.

Contact information: Applicants/students are responsible for maintaining current addresses, telephone numbers, and name changes on file with the Admissions Office, Records Office, and the Nursing Department.

Program Requirements/Information

Academic performance

Students must earn a minimum grade of C in the science admission requirements and in all Nursing (NURS) and science courses required for the degree. **Students must also meet and maintain the 3.0 cumulative g.p.a. requirement for all course work done before beginning the Nursing Program.**

Clinical/practicum experiences

During each semester of the Nursing Program students are assigned specific clinical experiences in various healthcare facilities and community agencies. Each nursing student must follow the specific regulations and rules of each facility and agency. Since nursing students have contact with patients/residents as part of their clinical courses, they are required by law to pass a background study (MN Human Services Study).

Nursing students are *not* eligible for workers compensation because they are *not* employees of the college nor are they employees of the health care institutions or community agencies where they perform their clinical experience. Annual professional liability insurance is required. The college offers a group policy for which the premium is payable upon registration. In accordance with the Nursing Program Promotion and Retention Policies, students may be dismissed from the Nursing Program when a student has threatened patient safety.

Essential functions in the nursing program

Nursing is a practice discipline with cognitive, sensory, affective, and psychomotor performance requirements. Essential functions include: use of senses, speech, reading, writing, physical ability, coordination, stamina, ability to problem solve, and emotional stability. The MnSCU Core Performance Standards for nursing students are available online or through the Nursing Program office.

Math requirement for nursing students

Mobility nursing students are not required to complete MATH 1000, Medical Dosages. Students will receive exemption from this course based upon transfer of their coursework from their Paramedic program. If indicated by assessment, completion of a developmental/remedial math course is required. Students are encouraged to take the math assessment well in advance of entering the Nursing Program so that any necessary remedial courses can be completed. **Completion of remedial courses is required by the application deadline. MATH 1000, Medical Dosages, is strongly recommended for any Paramedic who has not been recently employed or who is weak in math.**

Please note that Introductory Algebra (MATH 0030) is a pre-requisite for Chemistry Concepts (CHEM 1020).

Minnesota General Education Transfer Curriculum (MnTC) / General education requirements

Students are encouraged to complete as many of the required general education courses as possible prior to the start of the nursing courses (some of these courses have prerequisites). See the Nursing Program curriculum. If you have specific questions about transfer of previous college credits for the MnTC/general education requirements of the Nursing Program, please contact the Century Credit Transfer Evaluation Office at 651-779-3908 or visit <http://www.uselectmn.org>

Students must complete BIOL 2031 and 2032, Anatomy and Physiology I and II (8 credits), before taking the first nursing courses (NURS 1260/1265) in the Paramedic Mobility Track.

Students must have all MnTC/general education course requirements for the AS in Nursing Degree completed to be eligible to take the National Council Licensure Examination – RN (NCLEX®-RN).

Advanced standing

Qualified Paramedic graduates who are currently a Nationally Registered Emergency Technician-Paramedic and/or who are currently State Certified as an EMT-P (certification may be in any state in the U.S. but must be to a level equivalent to a Nationally Registered EMT-P) with one year full-time experience within the past five years will be awarded advanced standing

for 11 of the 34 nursing course credits required for graduation from the Associate Degree Registered Nursing Program prior to beginning the nursing transition courses (NURS 1260 and 1265).

Obtaining Registered Nurse licensure

After satisfactorily completing the Associate in Science Degree Nursing Program degree requirements, qualified students are eligible to apply for the National Council Licensure Exam - RN (NCLEX®-RN). Authorization to take this exam comes from the Minnesota State Board of Nursing as a result of the graduate's application to the board for licensure. The college's ***Intent for Graduation*** form must be submitted prior to completing the Board of Nursing application. After passing the licensure exam, students are eligible to apply for licensure in all states.

If you have any legal or medical questions regarding your potential for meeting the Minnesota Board of Nursing requirements for licensure or your potential to practice professional nursing, contact the Minnesota Board of Nursing directly at 612/617-2270 or **www.nursingboard.state.mn.us**.

Affirmative Action

The Minnesota State Colleges and Universities System (MnSCU) is committed to affirmative action, equal opportunity, and American Disability Act principles in all of its programs, services, activities, and employment.

The information in this publication is subject to change without notice. Century College is an equal opportunity educator and employer. This publication is available in alternate formats; call 651/779-3355 or TTY 651/773-1715.

Social Security Notice:

Century College uses Social Security Numbers for student identification purposes on student records. Providing your Social Security number is voluntary. However, if you do not provide your Social Security number, you may not be considered eligible for Education Tax Credits (Hope and Lifetime Learning Scholarships). If you do not provide this number, your petition will still be processed. This data is requested for purposes of administration, program evaluation and consumer data. Your number also may be used to create summary information about MnSCU programs through data matches with other state agencies.

Data Privacy Notice:

Refer to the Century College's course catalog and schedule for the most recent policy related to Student Data Privacy and Notification of Rights (Student Data). <http://www.century.edu/files/centurycatalog.pdf>

Revised 3/2011 KK

**Century College Associate in Science Degree
Nursing –Paramedic Mobility
Total Number of Credits: 64**

Career/Occupational Requirements: 34 credits

NURS	1260	Health, Healing and Holism & Role Transition from Paramedic to RN.....	4
NURS	1265	Clinical Application for Nursing 1260	2
NURS	1230	Nursing Intervention I: Health, Healing and Holism and the Role of the RN	4
NURS	2235	Clinical Application for NURS 1230	4
NURS	2222	A Pathophysiological Approach to Health Problems and Pharmacologic Therapy.....	3
NURS	2250	Synthesis and Transition to the Registered Nurse Role.....	3
NURS	2255	Clinical Application for NURS 2250.....	3

EMT-P students will be awarded advanced standing credits
 *Assessment of Paramedic Nursing Knowledge and Skills..... 11

General Education/MnTC Requirements: 30 credits

Goal 1 - Communication: 7 credits

ENGL	1021	Composition I.....	4
Select one of the following COMM courses:.....			3
COMM	1031Interpersonal Communication	
COMM	1041Small Group Communication	
COMM	1051Intercultural Communication	

Goal 2 - Critical Thinking is fulfilled when all MnTC goals are complete

Goal 3 and/or Goal 4 - Sciences/Math/Logical Reasoning: 11 credits

BIOL	2031	Human Anatomy and Physiology I.....	4
BIOL	2032	Human Anatomy and Physiology II.....	4
BIOL	2035	Microbiology.....	3

Goal 5 - History/Social and Behavioral Sciences: 6 credits

Two disciplines required
 PSYC 1041 Developmental Psychology.....3

Goal 6 - Humanities and Fine Arts: 6 credits

Two disciplines required
 PHIL 1035 Biomedical Ethics-recommended.....3

Goals 7-10: Three credits in each of two goals

Goal 7: Human Diversity

Goal 8: Global Perspective

Goal 9: Ethic and Civic Responsibility

Goal 10: People and Environment

Two 3-credit courses are required in Goals 7-10. COMM 1031, 1041, 1051 requirement meets one of the goals. One additional course (in a different goal than the communication course you complete) in Goal 7-10 is required. It is possible to choose a course in Goal 5 or Goal 6 that also meets the Goal 7 requirement. Refer to MnTC guidesheet available in Counseling and/or the college catalog.

PARAMEDIC MOBILITY TRACK APPLICANT CHECKLIST

Applicants must be state certified or nationally registered as an EMT-P. Applicants must have the equivalent of 1 year full-time paramedic work experience prior to the summer program start date. This must be verified by employer. Please complete the following checklist. All items must be completed prior to the application deadline or your application will be denied.

APPLICATION REQUIREMENTS: All items must be completed and documented before the application deadline. All courses completed or in progress must be reflected on official transcripts. Please see the Program Application Booklet for details.

<u>YES</u>	<u>NO</u>	
_____	_____	Have you ever attended Century College? If no: Have you submitted the required Century College Application with the \$20 application fee? (A general college application must be on file before your Nursing application can be processed. This Nursing application is not a substitute for the Century College Application form.)
_____	_____	Have you completed a Paramedic program and passed either a State Certification or National Registry exam?? Year of graduation _____ Institution _____ If NO, please do not submit this application at this time.
_____	_____	Will you have completed the prerequisite <u>general</u> biology or <u>general</u> chemistry course before the application deadline? If NO, please do not submit this application at this time.
_____	_____	Will you have completed a minimum of 10 credits of college-level MnTC credits before the application deadline? If NO, please do not submit this application at this time.
_____	_____	Will you have completed the Anatomy & Physiology courses (8 credits) before the summer start date? If NO, please do not submit this application at this time.
_____	_____	Have you taken the Accuplacer assessment test for placement in Reading, Writing and Math? All applicants must take the Accuplacer arithmetic and basic algebra levels of the math assessment for placement into Math 1000-Medical Dosages Calculations. (Exemption to the Reading and Writing assessment will be given for a Bachelor Degree completed at a US institution. Coursework equivalent to ENGL 1021 will waive the Writing assessment and a Reading course equivalent to RDNG 1000 will waive the Reading assessment. Courses must be completed with a grade of C or better.)
_____	_____	Have you taken the Nursing Pre-Admission Exam (Elsevier A2) (within the past 2 years)? If NO, please do not submit your application at this time. Exam results must be submitted with the application.
_____	_____	Will you have completed all developmental coursework indicated by assessments before the application deadline? If NO, please do not submit this application at this time. (Please note: Per our Assessment Department, if developmental courses are taken at another institution, you must retest after course completion and meet minimum requirements.)
_____	_____	Have you requested official transcripts from <u>ALL</u> post-secondary institutions attended? Transcripts must be current with grades posted for all terms completed prior to the deadline and must be received in a sealed envelope from the originating institution. Transcripts printed after November 1 will be considered as missing. Missing transcripts will be cause for denial of your application.
_____	_____	Will you have a minimum of 1 year full-time equivalent paramedic work experience before beginning the Paramedic Mobility Nursing program? Employer _____ Length of current employment _____ Average hours worked per week _____ Position title _____ (Employer verification form must be submitted by the application deadline.)

**We strongly recommend that you meet with a counselor to discuss your general education credits.
(This is recommended to ensure you are on track with the liberal arts requirements.)**

Applicant Signature

I hereby certify that the information provided on this application form and in all other admission application materials is complete, accurate, and true to the best of my knowledge. I understand that there may be more qualified applicants than available space in the class and that completion of application requirements does not guarantee acceptance into the program.

Signature

Date

Nursing applications will not be considered unless signed and dated and must be complete by the deadline date. Documentation received after the deadline will not be considered in the selection process.

Admission is granted without regard to race, creed, color, sex, age, national origin or handicap. This institution abides by the provisions of Title IX, federal legislation forbidding discrimination on the basis of sex and by all other federal laws regarding equal opportunity.

Note: Federal and state legislation requires that the contents of student files be open to review by the student. Application forms, high school transcripts, test date, letters, and recommendations that are sent as part of any application for admission will be open to the student's review upon request.
