Century Honors Math Students

Three Century College mathematics students were among the top 20 scorers in the Central Region of the American Mathematics Association of Two-Year Colleges' Student Mathematics League Contest.

The three students are Sean Murray of St. Paul, 18th in the Central Region; and Jason Johnson of Lino Lakes and Jason Burns-Gausman of Mahtomedi, tied for 20th place in the Region.

The three students were the top scorers out of the 130 Century students who took the test in the fall. The Century students received a check and a water bottle at a ceremony on Nov. 29.
