

# Minnesota Transfer Curriculum (MnTC)

## 2009-2010

Minnesota two and four-year public colleges and universities developed a common liberal arts general education curriculum known as the Minnesota General education Transfer Curriculum or MnTC. Completion of all or part of defined 40 credits, distributed among ten goal areas, at one institution enables a student to transfer lower-division education coursework to any Minnesota public college or university.

Any student who anticipates transferring to a four-year school should plan an appropriate program (both general education and major requirements) with one of the counselors prior to, and during, enrollment at Century College.

An agreement with the Minnesota State Colleges and Universities (MnSCU) provides that Century College's MnTC will satisfy all of the lower-division general education requirements of any of the state universities.

Individual MnTC courses will transfer into the same goal at any MnSCU college or university. If the entire goal is completed at one MnSCU institution, that goal will be considered complete at any other MnSCU institution. Documentation of the goal completion, as in a DARS (Degree Audit Reporting System) report from the sending college, is required.

An agreement with the University of Minnesota provides that the MnTC will satisfy the Liberal Education requirements.

Century also has agreements with private and out-of-state schools including Augsburg College, College of St. Scholastica, Concordia University-St. Paul, University of Wisconsin-River Falls, University of Wisconsin-Stout, University of North Dakota, and North Dakota State University that facilitate transfer of the AA degree and MnTC. These agreements do not guarantee the transfer of every course.

**See page 4 for more Counselor Notes and Information.**

### General Requirements for MNTC:

### PHYSICAL EDUCATION/HEALTH: (for AA only) 2 credits

In recognition of the importance of health and wellness to a thriving society, personal well being, and work productivity, Century College requires that students take a minimum of 2 credits in Physical Education/Health with at least one activity course in Physical Education. Select from PE 1000-1075; HLTH 1001-1070.

#### Recommended:

**Computer Literacy:** Recognizing the importance of computer literacy in the world today, it is recommended that students develop computer skills appropriate for their major fields by either selecting courses that are computer-based or selecting a course(s) that will fulfill this need.

#### Additional Requirements:

Sufficient college-level credits (1000 or higher) to total 64.

## COUNSELORS' NOTES AND SUGGESTIONS

1. The MnTC consists of the general education requirements typically completed during the first half (2 years) of a Bachelor's degree ("four year degree"). Century has transfer agreements with all of the Minnesota State Universities, University of MN-Twin Cities and Duluth and University of Wisconsin-River Falls and Stout stating that all of the lower-division general education distribution requirements at these institutions are automatically met by completion of MnTC or AA degree. Century also has articulation agreements with Augsburg College, College of St. Scholastica, Concordia University-St. Paul, University of North Dakota and North Dakota State University that considers transfer students with the MnTC or AA degree to have fulfilled most of their lower-division general education requirements. This does not, however, guarantee the transfer of each course or eliminate the need to plan for pre-major requirements. Students interested in transferring must often meet additional general education requirements, pre-major requirements, second language requirements, and/or minimum high school preparation requirements (only those graduating from high school in 1987 and after) as outlined on the transfer guides available in the Counseling Center, Room 2400 and on the Century website. Consult with Century counselors and representatives of the transfer college of your choice for detailed information and planning.
2. Transfer guide sheets outlining general education requirements for a number of four-year colleges are available in the Counseling Center and on the Century website. Century courses meeting these requirements are listed. Transfer guide sheets listing Century courses that meet degree and admission requirements for a number of specific majors at some colleges are also available in the Counseling Center and on the Century website.
3. Students transferring in at least 8 college-level credits from another MnSCU (Minnesota State Colleges & Universities) institution and/or the University of Minnesota can meet the residency requirement for graduation by completing 12 credits at Century College.
4. Any exceptions to the requirements for the MnTC must be petitioned through the Vice President of Academic Affairs. Forms and assistance are available in the Counseling Center.
5. Students shall follow any catalog in effect during the six-year period proceeding their date of graduation. The student shall declare which catalog year on the form "Application for Graduation" at least six weeks prior to graduation. The student must have been enrolled at Century during the catalog year selected.
6. Also see the white information sheets, dealing with questions and issues relating to transfer available in the Counseling Center:
7. Catalogs (print and Web), and other materials from a variety of colleges are available in the Career Center for your use. Course equivalency tables can be found on the web at [www.uselectmn.org](http://www.uselectmn.org). The Degree Audit Reporting System (DARS), on the Century website under e-services, delivers computerized information about course requirements needed to complete your degree or program of study at Century.
8. **Career Information:** Counselors are available in the Counseling and Career Center to assist you with educational and career planning. Resources include career interest and personality inventories and print and web-based occupational and educational information, e.g., occupational descriptions, employment outlook, earnings, education/training requirements and sources. Consult the GPS LifePlan link on the Century website for information on these and more resources for your career, work and education planning!
