

# Syncing Android Mobile with Century E-mail

Instructions for setting up Century student e-mail on an Android mobile device

---

## Century E-mail and Android Mobile Devices

Android devices can have different versions of the Android operating system. Below are general directions for syncing Century e-mail with an Android device. Precise steps may vary slightly between devices.

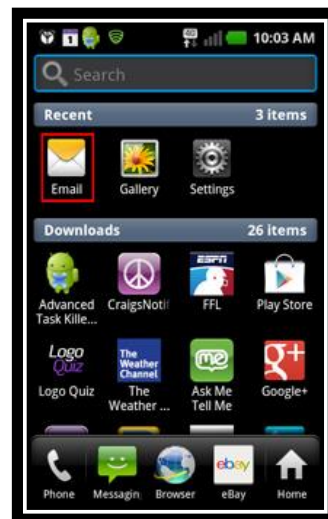

### Step 1

Tap the **Applications** button on your Android device.

### Step 2

Find and tap the **E-mail** application.

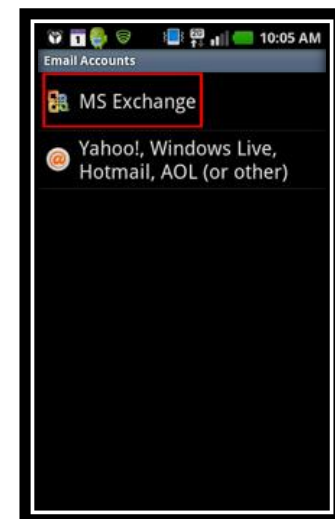

### Step 3

Tap the **Settings** button (typically located near the bottom of your phone), and then tap **Add account**.

### Step 4

Tap the **MS Exchange** option.

If you need support connecting your Century e-mail to your mobile device, it is recommended that you contact your phone company or device manufacturer directly. Century College does not provide direct technical support to student personal devices.

## Step 5

Enter your **Century e-mail address, password** and **Username** as shown below.

Tap **Next**.

*Note: If you have **Manual** option, choose **Manual**.*

## Step 6

The next step may vary slightly from phone to phone:

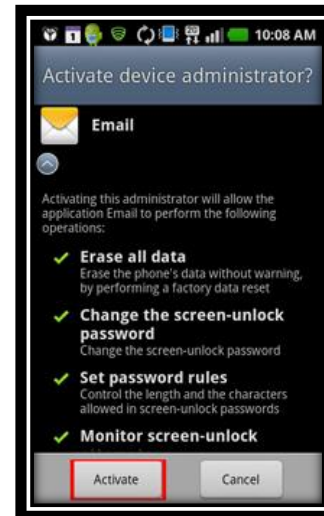

- **Domain:** leave it blank
- **Server Address:** Enter **outlook.office365.com**

## Step 7

Your Android device should connect with the e-mail server and a screen will appear with account options. We recommend keeping the default settings.

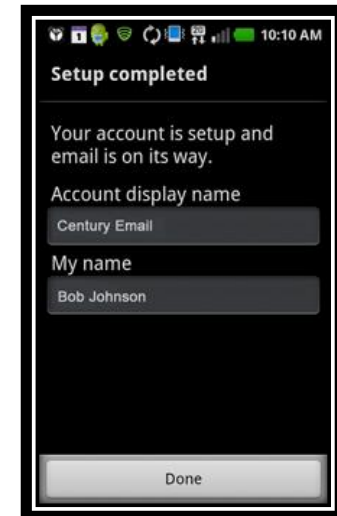

Tap **Next** or **Activate**.

## Step 8

Your phone will then connect to e-mail. Give your Century e-mail account a name on your Android device.

That's it!

# Syncing Apple Devices with Century E-mail

Instructions for setting up Century student e-mail on an Apple mobile device

## Century E-mail and Apple Mobile Devices

Newer Apple mobile devices may sync with Century e-mail in less steps than shown below. The following steps are written for the iPhone 5, but these directions should also help sync your iPhone 3GS, iPhone4, or iPhone 4S.

### Step 1

Tap on the **Settings** icon.

### Step 2

Tap the **Mail, Contacts, Calendars** option.

### Step 3

Choose the option to **Add Account**.

### Step 4

Tap the **MS Exchange** option.

If you need support connecting your Century e-mail to your mobile device, it is recommended that you contact your phone company or device manufacturer directly. Century College does not provide direct technical support to student personal devices.

## Step 5

On the next screen, do the following:

- Enter your e-mail address
- In the **Server** option, enter **outlook.office365.com**
- If your phone has a separate line for **Domain**, leave it blank
- Make sure your **Username** is your full Century e-mail address (i.e. starid@my.century.edu)
- Enter your Century **Password**
- Choose a **Description** for the account on your phone
- Tap **Next**

## Step 6

Choose your basic sync settings, and tap **Save**.

That's it!
