Optional Practical Training (OPT) OPT is work authorization granted by USCIS to allow F-1 students to gain experience directly related to their major area of study. Students may apply for OPT authorization during their academic program, after program completion, or a combination of both. Students are eligible for 12 months of full-time OPT per academic level and do not need a job offer to apply for OPT authorization.

When on OPT, students are required to be working or volunteering in a field directly related to their program of study.

**Eligibility Requirements**
- Student is currently in F-1 status.
- Student has been enrolled in a full course of study for one academic year (two semesters).
- Student has not exceeded 12 months of full-time Curricular Practical Training (CPT) authorization.
- Student has not already used OPT at the current academic program level or at a higher program level.

**Types of OPT**
- **Post-Completion OPT – (C) (3) (B)**
  OPT authorization that begins after completion of the academic program is called “post-completion OPT”. This is the most common type of OPT. Post-completion OPT is full-time and it begins after you complete your degree program.

- **Pre-Completion OPT – (C) (3) (A)**
  OPT used while you are still enrolled in your course of study is called “pre-completion OPT”. Students will be authorized for part-time employment (20 hours/week or less) while enrolled in a full course of study. Students who do not have academic internships/practical experiences available in their program of study and cannot use CPT may want to consider this option. Pre-completion OPT is deducted from the 12 months of OPT eligibility, so most students prefer to save OPT for after program completion.

**When to Apply**
